OPERATIONS

65+ years

GLOBAL PRESENCE

35 countries

WORKFORCE

18,000+ talents

INNOVATION

60+ leading proprietary
technologies

2025 REVENUE

€7.2bn

2025 EBITDA

€638m

BACKLOG

~€20bn
at end March 2026

Contributing to the development of critical markets

Energy

- LNG¹ & decarbonized LNG
- Gas & others

Decarbonization

- Blue & green hydrogen, ammonia & derivatives
- SAF² & other sustainable fuels
- Carbon capture management

Energy derivatives

- Ethylene & decarbonized ethylene
- Hydrogen
- Chemicals & others

Circularity

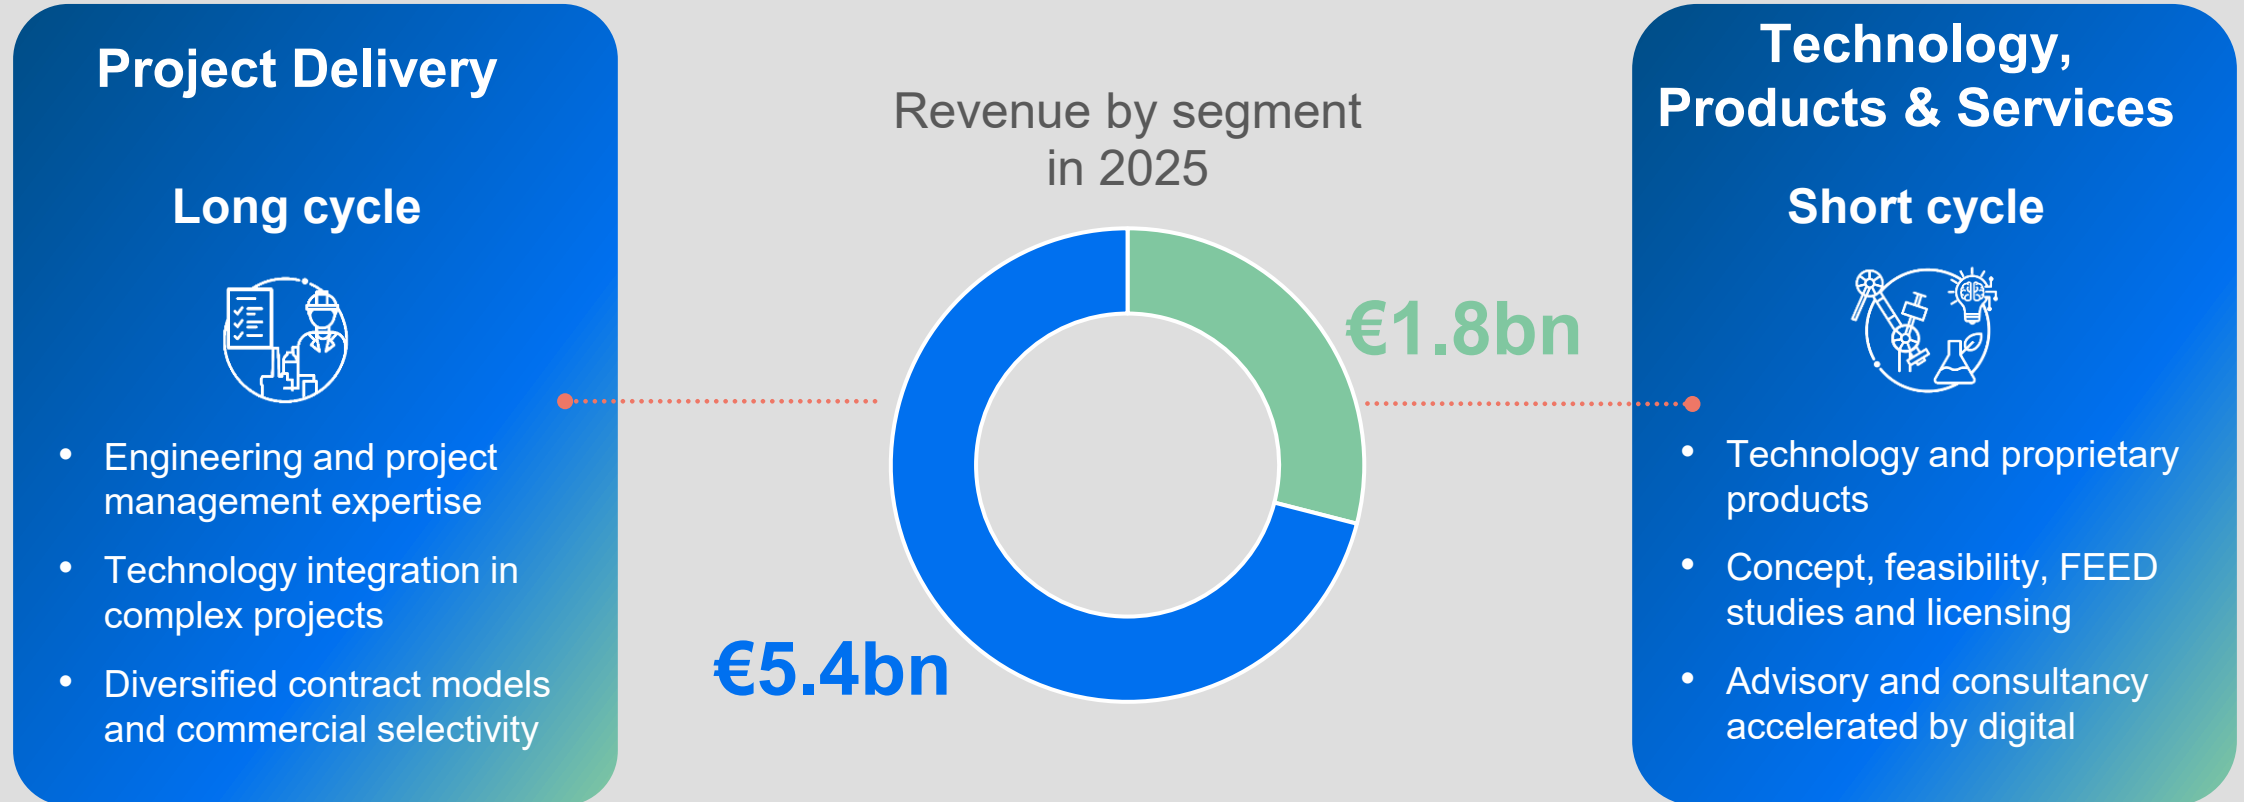

- Chemical recycling
- Plastic recycling
- Textile-to-textile recycling

¹ Liquefied natural gas

² Sustainable aviation fuel

Our hybrid model

Two complementary business segments providing resilience & diversification
