1. Introduction

Introduction

Telstar Group

Telstar is a family owned company with its own technology.

Telstar has a consolidated sales of 110 M € in 2010.

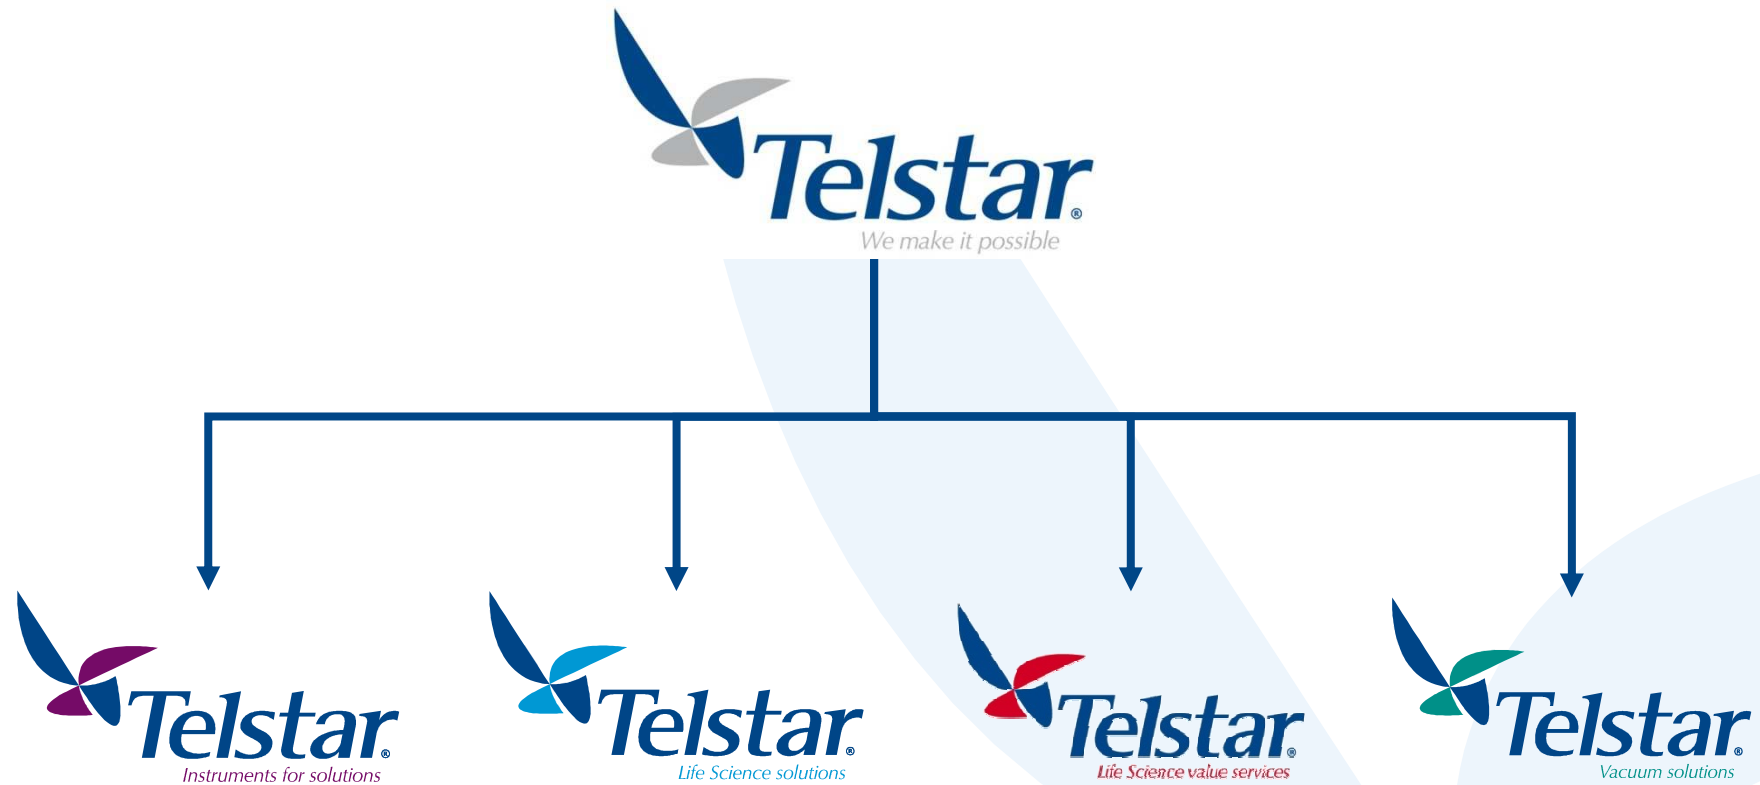

Telstar has a team of 850 people.

Telstar has a global scope and it is established in 15 countries.

Telstar distributes its own products and services to more than 100 countries.

4. Telstar Life Science Solutions

Product Range

Life Science Solutions

Barrier Technology

Restricted Access Barrier Systems (RABS)

Down Flow Booths

Aseptic Isolators (Rigid and flexible)

Containment Isolators

Process Related Equipment

SAS

Product Range

Life Science Solutions

Sterilization & WFI Technologies

Dry Heat Ovens

Steam Sterilization Autoclaves

Ethylene Oxide Sterilization Autoclaves

CIP/SIP

Waste Treatment Systems

Product Range

Life Science Solutions

Clean Air Technology

Horizontal and Vertical Clean Benches
Class I, II and III
Microbiological Safety Cabinets (BSC)

Pharmacy Isolators
Laminar Airflow Modules (LAF)
Integrated Laminar Flows

Product Range

Life Science Solutions

Cell Culture Technology

HexaScreen

Multiple minibioreactor system for animal cell screening

Product Range

Life Science Solutions

Lyophilization Technology

GMP freeze-dryers
Loading and unloading systems (LyoGistics)
Laboratory freeze-dryers

Product Range

Life Science Solutions

Operation Room Technology

Delivery and installation of operating theatre ceilings
and turn-key solutions for operating theatres.

Product Range

Life Science Solutions

Water Systems

PW: Generation, storage & distribution
WFI: Generation, storage & distribution
Pure Steam Generators

Product Range

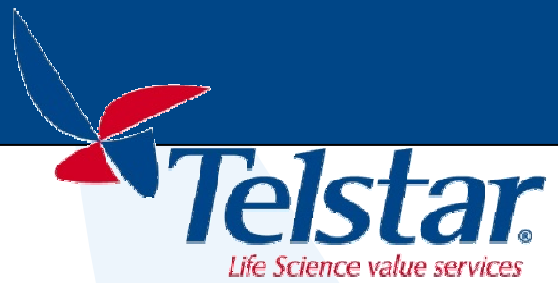

Life Science Solutions

Clean Room

Architecture
Air treatment

5. Telstar Life Science Value Services

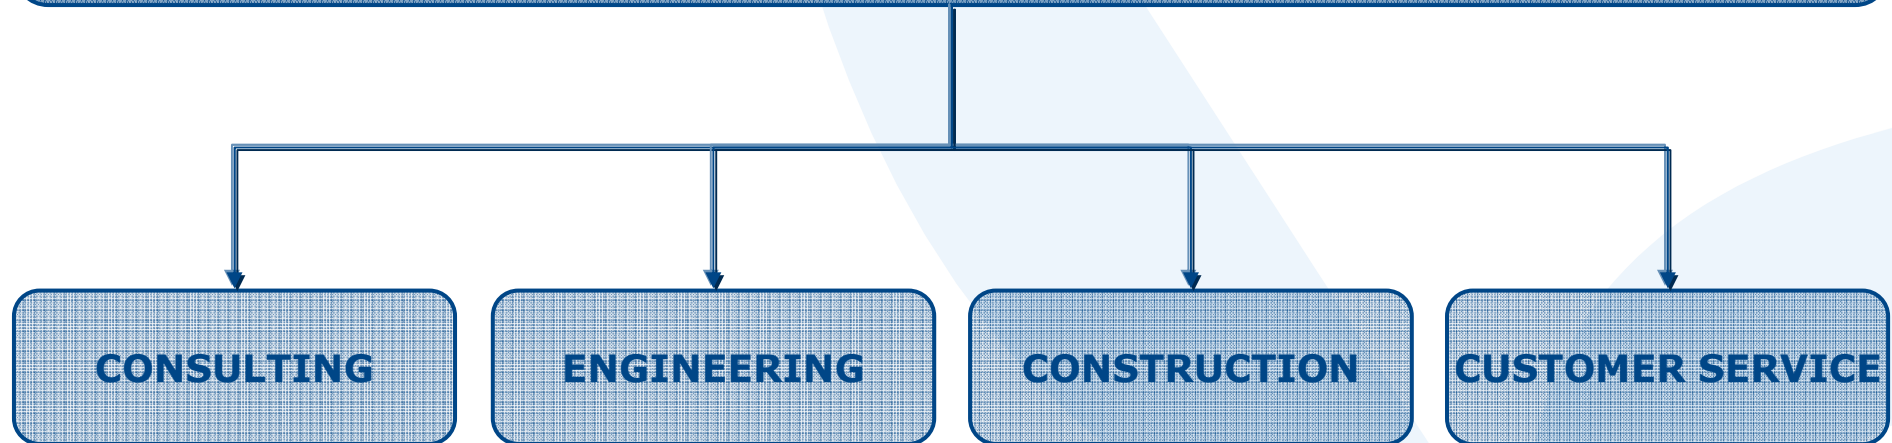

Service Range

Life Science Solutions Value Services

INTEGRATED SERVICES

Service Range

Life Science Solutions Value Services

Consulting

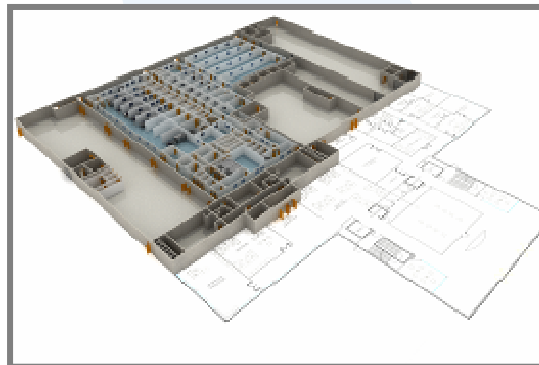

Strategic Consulting
Qualifications & validations
Quality Assurance
Regulatory Affairs
Process Software
Clinical Research
Training
URS + Concept Design

Service Range

Life Science Solutions Value Services

Engineering

URS + Concept design
Basic Engineering
Detail Engineering
Project Management

Service Range

Life Science Solutions Value Services

Construction

Construction Management
Construction
Installation
Procurement
Commissioning & Start Up
Qualification

Service Range

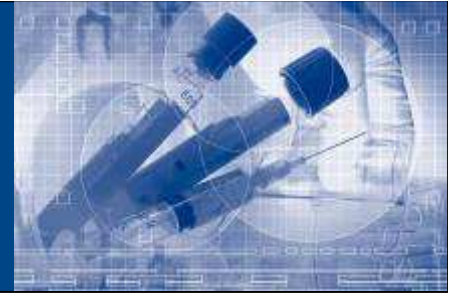

Life Science Solutions Value Services

Customer service

Equipment & facilities Qualification
Predictive & corrective Maintenance
Calibration
Calibration Laboratory

6. Telstar Vacuum Solutions

Product Range

Vacuum Solutions Division

SF6 and Industrial Leak Testing Applications

Leak Detection System

Gas Insulating Switchgear

Product Range

Vacuum Solutions Division

Vacuum Oil Treatment

Vacuum Oil Treatment EDS - EDC

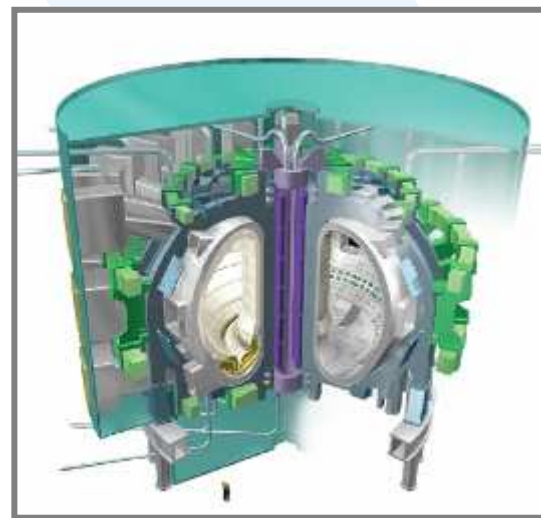

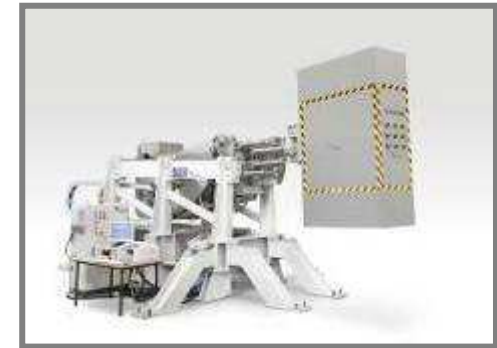

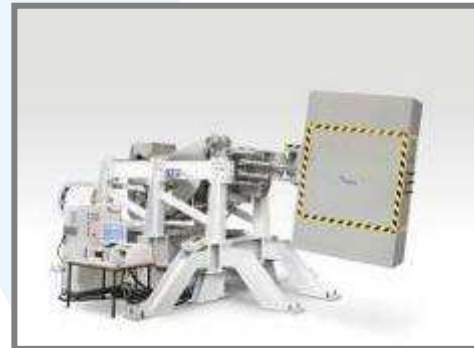

Vacuum Pressure Impregnation Plants

Product Range

Vacuum Solutions Division

Mechanical application for Divertor Remote Handling for maintenance of ITER fusion reactor

Product Range

Vacuum Solutions Division

Space Simulation Chamber for INPE (Brazil)

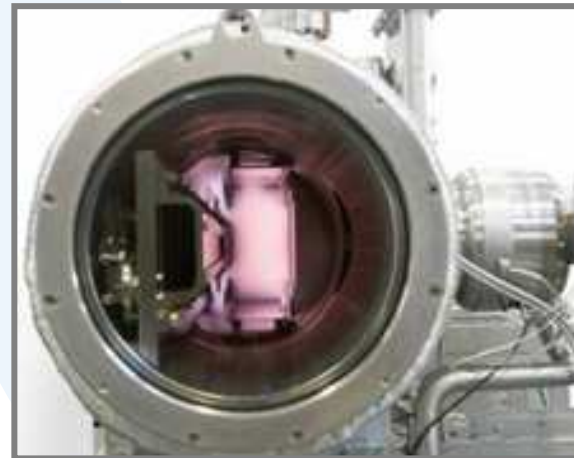

Product Range

Vacuum Solutions Division

Multilayer Sputtering machine, ESRF (France)

7. Telstar Instruments for Solutions

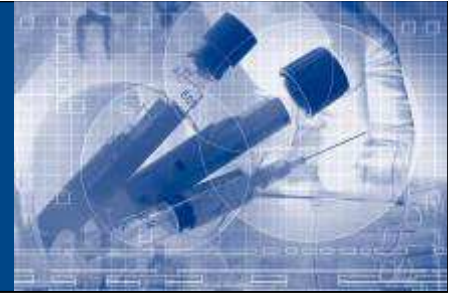

Organization

Telstar Instruments for Solutions

Activity: Distribution of high technology instrumentation; techniques of analysis and characterization of surfaces on a nanometric scale; thermal analysis equipment; vacuum instrumentation and components; ultra high vacuum and cryogenics. Focused in scientific & industrial sectors
